Highlights

XHD sound

No matter where you are, you can have a phone conversation that is free from noise, with incredible loudness and sound purity in the voice. Thanks to a high-quality speaker, sophisticated technology and to a real acoustic chamber, you can enjoy the unbelievable sound quality in every phone conversation.

Handset speakerphone
Hands-free mode uses a built-in loudspeaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or take notes during a call.

Very low energy consumption
Thanks to a high efficiency power supply, the overall energy consumption is reduced by more than 50% compared to a conventional power supply.
